Sir:

This letter is in response to the office Action dated July 28, 2000 and received on August 7, 2000.

REMARKS

Claims 1 – 8 and 10 – 17 were rejected.

All of the claims were rejected with EP 702929 (equivalent U.S. 5,902,662) being the basic reference under 35 USC 113 (a).

As noted by the Examiner, all of the claims require the non-woven carpet pile substrate to possess "a heat shrinkage factor of from about 2.0% to about 2.5%." This is a critical limitation clearly not shown or anticipated in any of the cited and/or applied prior art. It should be noted that the basic reference relied upon, namely EP 702929, is in the name of one of the co-inventors
